

Emergency Department Workflow

Hospital Knowledge Base Assistant — Reference Document

Arrival

Patients arriving with urgent symptoms are assessed through the emergency department's triage process.

Triage

Triage prioritizes patients according to clinical urgency rather than arrival order alone.

Assessment

Clinical assessment may include vital signs, focused history, examination, diagnostic testing, and immediate treatment.

Disposition

Patients may be discharged, observed, transferred, or admitted depending on clinical assessment and available services.

Note: This is a synthetic knowledge-base document created for application development, RAG testing, demonstrations, and training. It is not a substitute for clinical judgment, hospital policy, or professional medical advice.
